# assembly instructions

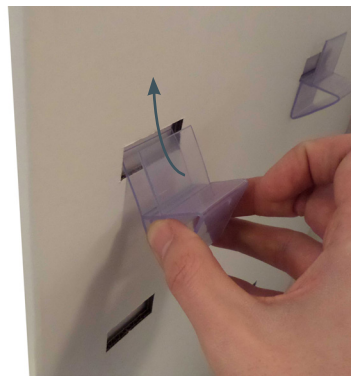

## Multi Function FSDU

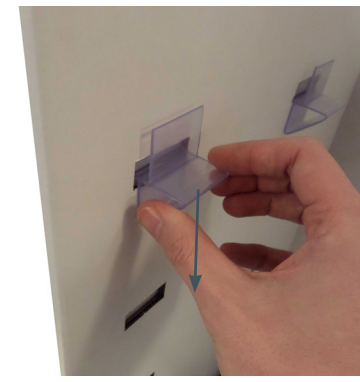

**5** Fold unit out from flat. Fold the base flaps under & stand upright.

**6** Clip footer in place. Place layer pad on base & slot header on top.

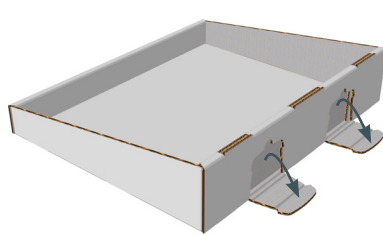

**7** Insert shelf bracket into slot.

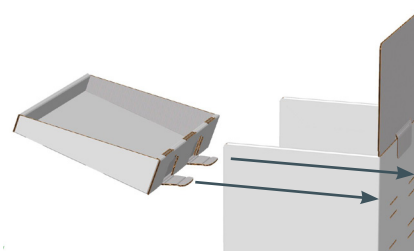

**8** Slide bracket down to lock in place.

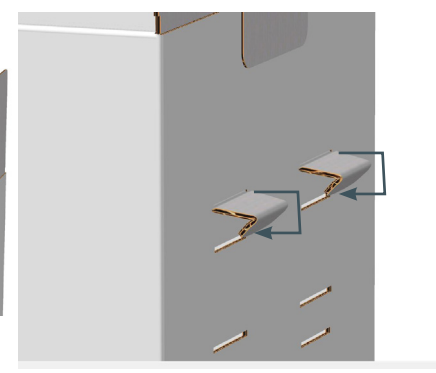

**9** Repeat for all positions where shelves are to be placed.

**10** Complete Steps 1-3 for all required shelves. Pull down tabs to the rear.

**11** Place shelf inside fsdu at the required height, inserting tabs into the slots

**12** Tab through the top slots, before returning through the bottom slots.

**Note:** FSDU can be setup as required, above is for illustration purposes only.
